Objective

Aspiring Junior AI Engineer and third-year Computer Science student with hands-on experience in Python and Machine Learning. Passionate about building intelligent systems using AI and NLP, and seeking an entry-level role or internship to gain industry experience and contribute to impactful AI projects.

Education

FAST National University of Computer and Emerging Sciences, Karachi

Bachelor of Science in Computer Science
Currently in 5th Semester

2023 – 2027 (Expected)

Technical Skills

- **Programming Languages:** Python, C, C++
- **Machine Learning:** Supervised & Unsupervised Learning
- **Deep Learning:** Neural Networks (Fundamentals)
- **Natural Language Processing:** Text Similarity, Basic NLP Techniques
- **Databases:** SQL
- **Operating Systems:** Process Management, Memory Management (Conceptual)
- **Libraries & Tools:** NumPy, Pandas, Scikit-learn, Jupyter Notebook, OpenCV, Google Colab, Git

Projects

Movie Recommendation System (Content-Based)

GitHub Link

- Built a content-based movie recommender using cosine similarity.
- Extracted features from movie metadata to generate personalized recommendations.
- Implemented using Python and Scikit-learn.

Fashion Recommendation System (Ongoing)

- Developing an image-based fashion recommendation system to detect clothing items from uploaded images.
- Filtering suggestions based on user budget and preferences to provide personalized search results.
- Implementing feature extraction, similarity search, and ranking using Python and ML techniques.

Quranic Ayah Identification Using Urdu Translation (Ongoing)

- Developing an NLP-based system to identify Quranic Ayahs from partial Urdu translations.
- Applying text preprocessing, similarity matching, and basic NLP algorithms.

Teaching Experience

Private Tutor (Local & International Students)

2022 – Present

- Teaching O-Level and A-Level students in Mathematics and Computer Science.
- Conducting online tutoring sessions for international students.
- Strengthened communication, explanation, and problem-solving skills.

Certifications & Professional Development

- Deloitte Virtual Internship Program
- British Airways Virtual Experience Program
- Udemy Courses in Python, Artificial Intelligence, and Machine Learning (Ongoing)

Additional Information

- Strong interest in Artificial Intelligence, Machine Learning, and NLP
- Self-motivated learner with project-based approach
